

MEETING AGENDA

DATE: SATURDAY, APRIL 22, 2017

CHAIR: FELIX

PARTICIPANTS: ELIAS, FELIX AND JOHAN

1. OBJECTIVES (5 MIN). RESOLVE ANY ISSUES PREVENTING THE TEAM TO CONTINUE.

- **Short clear descriptions**

OBJECTIVES

- **Iteration 1**

2. REPORTS (15 MIN) FROM PREVIOUS MEETING

- **Each group member reports outcome of assigned issues, see also 4)**

REPORTS

FROM PREVIOUS MEETING

Johan has created the test for Zack's Save and Load implementation. However, he has not had time to update the sequence diagrams as of today. He will update them as soon as possible.

Elias has implemented the navigation drawer and wants to see with the others if there is anything that could be updated, and there is also a few things that will be added after today's meeting.

Felix has documented in the SDD about MVC and the pros and cons with using MVC compared to MVVM and MVP. He has also documented a lot of the different classes using the specification that is given in the SDD.

Felix implemented the sorter class, added creation calendar time for each task and updated the hash code and equals methods.

Zack has continued to work on the Save and load implementation. The only thing left from last meeting is adding the material he was assigned for the SDD. Unfortunately, he is not present to report anything in detail.

3. DISCUSSION ITEMS (35 MIN)

- **Discuss issues from 1 and 2, possibly new or more general issues (very short notes and/or keywords)**

DISCUSSION

ITERATION 1

Elias showed what he had accomplished in the navigation drawer. We then discussed what we could improve and what the others knew about Elias' problems regarding the Toolbar and animation functionality.

The group then also discussed what and needs to be finished for iteration 1 to be finished.

4. OUTCOMES AND ASSIGNMENTS (5 MIN)

- Outcomes from 3). I.e. write down what's decided and why it was decided? Sync with other documentation (add terms to wordbook)
- From outcomes, 1), 2) and 3) (re)assign each group member issues to solve.

OUTCOMES

ITERATION 1

Iteration 1 has not been completed yet, but the goal will be to finish it by this weekend. Felix and Elias will look more into the navigation drawer and finish up the following necessities:

- ❖ Change toolbar headline depending on the category chosen.
- ❖ Change toolbar color depending on the category chosen.
- ❖ Bind the categories to their respective filtered list.
- ❖ Fix creational bug by disabling the fab button when a task is created.
- ❖ Animation for the navigation drawer
- ❖ Possibly refactor MainActivity into more separate parts.

Johan will finish up the sequence diagram update, and then also start looking into layouts for the categories in the navigation drawer.

5. WRAP UP - WRITE DOWN UNRESOLVED ISSUES FOR NEXT MEETING.

- Time and location for next meeting

PLANNING

Next meeting will probably be on Wednesday the 26th of April in the ML building.
